From Ottawa, Ontario: "Wrench In The Works":

The debut album, titled "Practically Normal", is now ready for consumer consumption and contains some really fun tracks!

The music ranges in genre from punk fusion-pop expo, to industrial bam. It's really neat stuff the whole family can enjoy!!

Influences? Hard to pin down, but if we had to say, you could include: *Jellyfish, Sinatra, Kevin Gilbert, Sex Pistols, Cheap Trick, The Beatles, The Mills Brothers, Bobby Sherman...* that kind of stuff. and I assume it sounds sort of, like a combination of those influences...

sort of... kinda... but... not really...

(Get ready for a major new disturbance)

"Music like this is as scarce as rocking horse shit... Get it while you can!"
- *Wooden Horse Alliance*

"The best we've heard in progressive pop-fusion style industrial punk bam"
- *a big newspaper*

"You've never seen or felt anything like this"
- *Indie Music International*
